

Bird Net Support Wheels

Our heavy duty bird net support offers several advantages over conventional tripod bird net supports.

- Their larger size helps to increase the surface area supporting the top net thus reducing any point loading
- Main flotation ring made from Ø180mm PE pipe
- Minimal movement makes them ideal for large diameter pens
- Utilises electrofusion process and control
- Modular design with the option to increase circumference

Description					
BNSW Code	BNSW27	BNSW30	BNSW33	BNSW36	BNSW39
Circumference (m)	(27m)	(30m)	(33m)	(36m)	(39m)
Diameter (m)	8.6	9.6	10.5	11.5	12.4
No. Of Uprights	9	10	11	12	13
Height (m)	2.6	2.6	2.6	2.6	2.6
Weight (kgs)	360	400	440	480	520
Polystyrene (EPS) Infill	Yes	Yes	Yes	Yes	Yes

Also available in 2m x 2m Square form. Customisation available upon request.

Sinker Tubes

We offer a range of sinker tube options for both 2 and 3 ring pens utilising thick walled, durable polyethylene pipe with options for either chain or wire cores. More information available upon request.

Fusion Marine's Hornet 490 tender craft is widely used by fish farmers, dive operators and leisure users. The tough construction means that it's a very capable tender. The Hornet 490 is constructed from polyethylene which makes it more robust and very low maintenance is required.

Description	
Length	4.92m
Beam	2.08m
Height	1.1m
Dry Weight of Craft	420kgs
Maximum H.P	60HP
Maximum Load	800kgs (7 Persons)

(Fusion Marine Ltd reserves the right to make improvements and changes to products and specifications without notice)

Customisation of the Hornet 490 tender is available upon request.
